A photograph of a family of four running happily through a large glass doorway. A woman in a light blue top and jeans is in the center, with two young children in front of her. The scene is bright and cheerful, suggesting a sunny day.

THE NATURAL LIGHTING EXPERTS

Excellence in delivering
quality services in natural
daylighting solutions

Capture

Advanced optical domes capture daylight using proprietary technologies that harvest low-angle morning and afternoon daylight to increase light output, while filtering out harmful UV rays.

Efficient Transfer

The world's most reflective tubing transfers maximum daylight from rooftop to ceiling with minimal light loss and perfect colour rendition.

Controlled Delivery

Specially designed optical lenses evenly disperse daylight throughout the area to reduce glare and provide visual comfort.

160DS Round/Square Decorative Fixtures
Just Frost or Optiview

290DS Round/Square Decorative Fixtures

Control your light

Light Add-on Kit

Works with any ordinary bulb for night-time use.

Ventilation Add-on Kit

Combines with the Solatube® 160 DS to drive out humidity in a single elegant design.

Daylight Dimmer

Easily controls the amount of daylight entering a room with the convenience of a switch.

Solar Night Light

Integrated Solar Electric Technology – Charging during the day, emitting a soft glow at night.

Flashings

For all roof types

Fabricated as a single, seamless piece to ensure leak-proof performance, flashing kits are available for all roof types and pitches.

Roof Ventilation

Drive out heat and moisture

More airflow

Advanced solar panel technology generates maximum power through a large 320 diameter fan.

Tailored roof tile

Seamless one piece flashing guarantees a leak-proof and durable product. Customised to your roof.

High-performing

High-performance motor is reliable, long lasting and whisper quiet. Installed in under 1 hour by a Solatube Certified Installation consultant.

Best warranty

5 Year. Brush-less motor (so it won't wear out). No Parts excluded.

The Australian climate is variable – Summers have extended periods of high temperatures, and in some areas we see prolonged periods of continual wet weather. From these conditions it puts pressure on the home to cope with hot and damp extremes. The answer is to drive heat and moisture out of your home throughout the year, Solatube Solar star provides a cost effective solution.

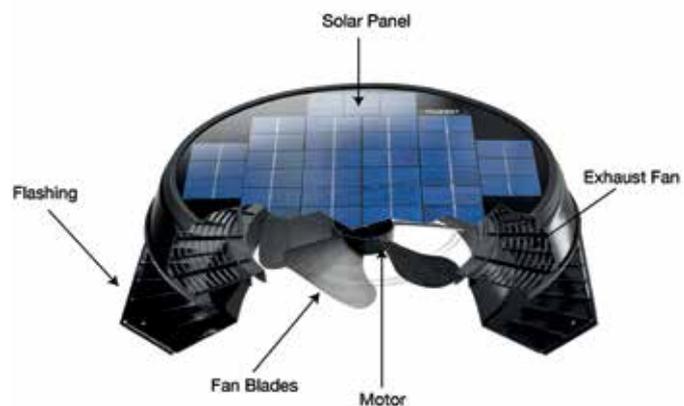

Solar Star Roof Mount 1200

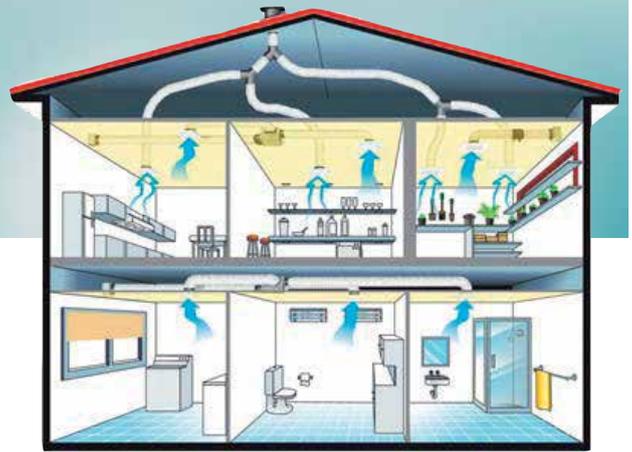

Solar Star Roof Mount 1600

Residential Quantity Guidelines

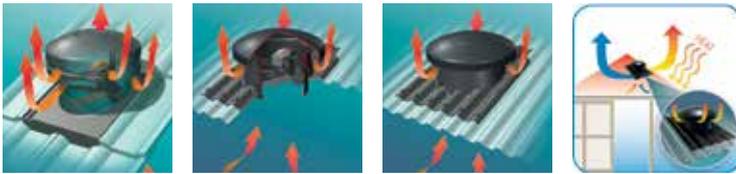

Roof Zone size (m ²)	Roof Pitch	
	Roof Pitch (up to 18°)	Roof Pitch (19-34°)
74	1 x 1200	1 x 1200
111.5	1 x 1200	1 x 1200
149	2 x 1200 or 1 x 1600	1 x 1600
186	1 x 1600	2 x 1600
223	2 x 1600	2 x 1600

Room Ventilation

Solatube has a range of room ventilation options, double cap thermostat motor ventilation, single cap stat ventilation and accessories.

Double Cap Motor Ventilation

- Operates without the need for wind
- System automatically turns on when needed
- Rating 820 M3/hr
- Warranty: 2 year motor, 7 year flashing and vent cap

Single Cap Motor Ventilation

- Operates without the need for wind
- Rating 520 M3/hr
- Warranty: 2 year motor, 7 year flashing and vent cap

Single Cap Stat Ventilation:

- Operates without the need for wind
- Warranty: 7 year flashing and vent cap
- Operates on thermo convection allowing hot air to escape from roof cavity

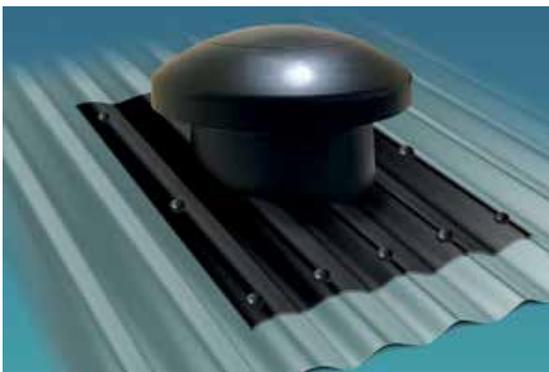

Accessories

- Enviromax – Thermostat control switch
- The easiest way to control the temperature limit for your motorised roof vents to activate. The system automatically turns on and off.

Why room ventilation is important

- ✓ Reduces heat built up
- ✓ Protects insulation from moisture saturation
- ✓ Fights mould and fungal decay
- ✓ Reduces heating costs
- ✓ Reduces air conditioning costs
- ✓ Reduced moisture helps to control allergens and asthma causing dust mites
- ✓ Removes steam and vapour from wet areas
- ✓ Recommended for rooms where security prevents the use of windows
- ✓ Helps to eliminate bathroom and kitchen odours that can linger in the home
- ✓ Quiet Operation
- ✓ Unique, non metal construction

VELUX®

Roof Windows

Roof Windows can transform a room and by adding multiple installations create a feature for any space. With the option for solar operable, solar blinds, and built in rain sensors, you can have natural light with all modern accessories.

FLAT ROOF SKYLIGHTS

1 FCM – Fixed (non-opening)

2 VCM – Manually operated

3 VCS – Solar-powered skylight

PITCHED ROOF SKYLIGHTS

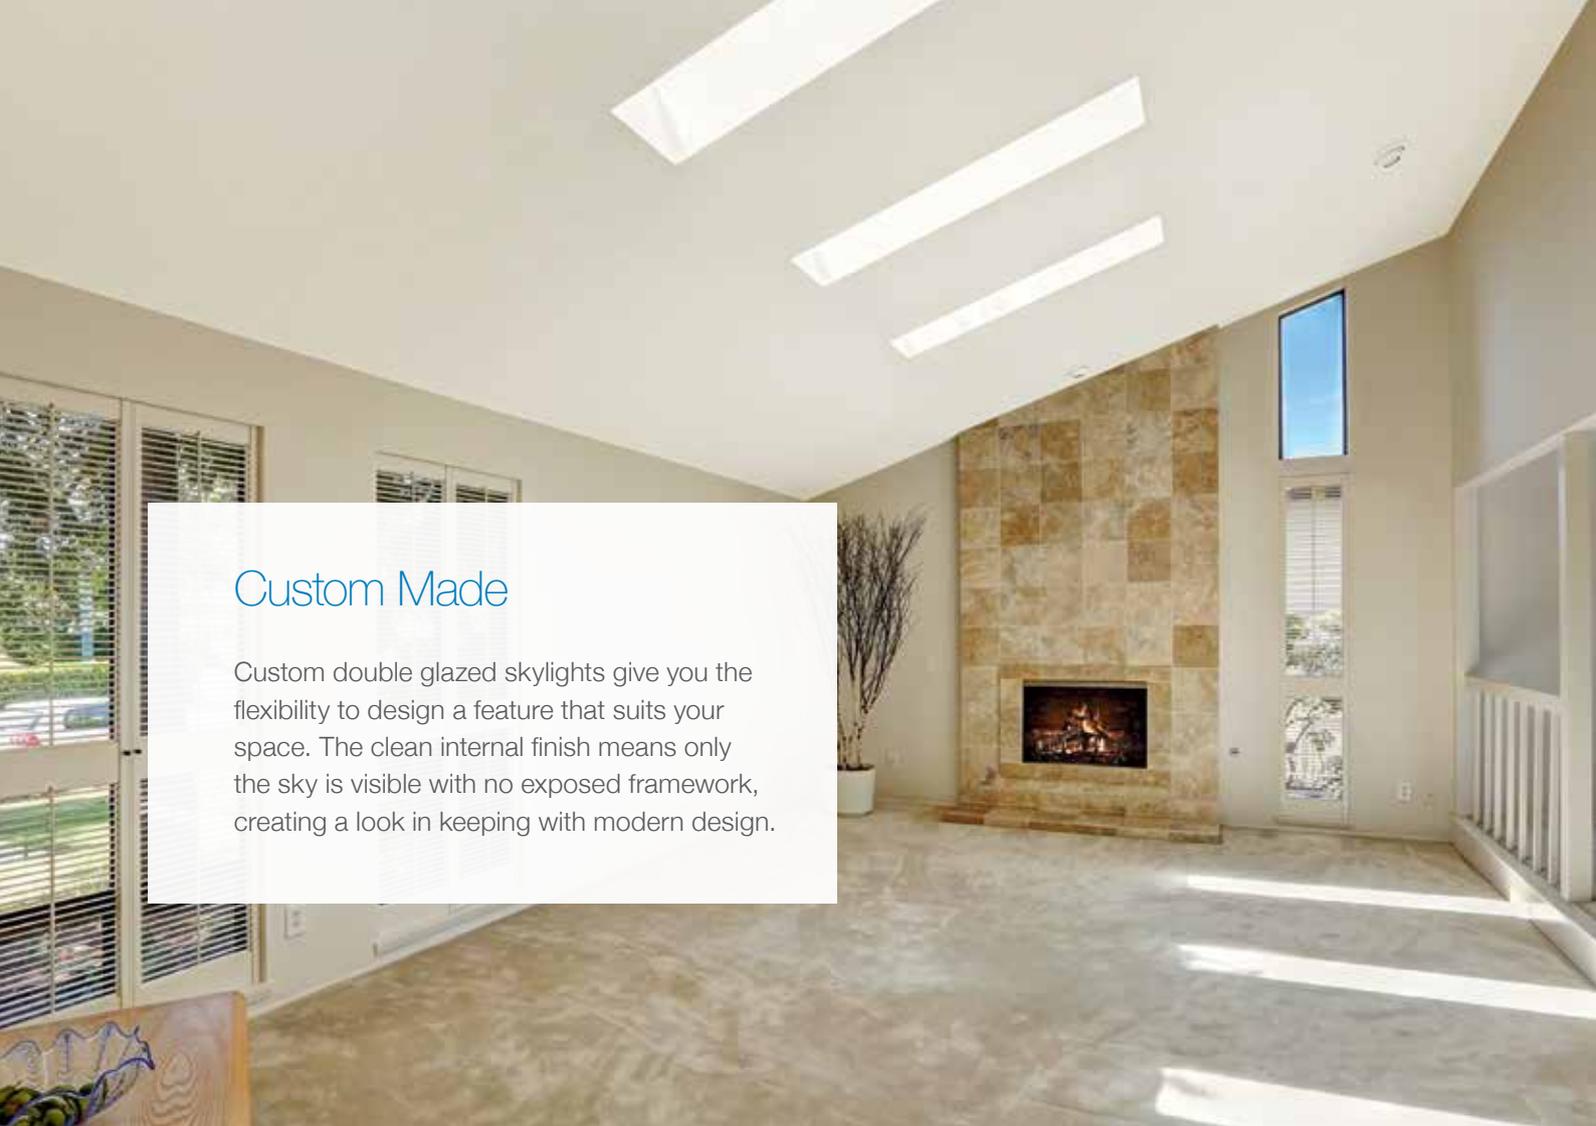

4 FS – Fixed (non-opening)

5 VS – Manually operated

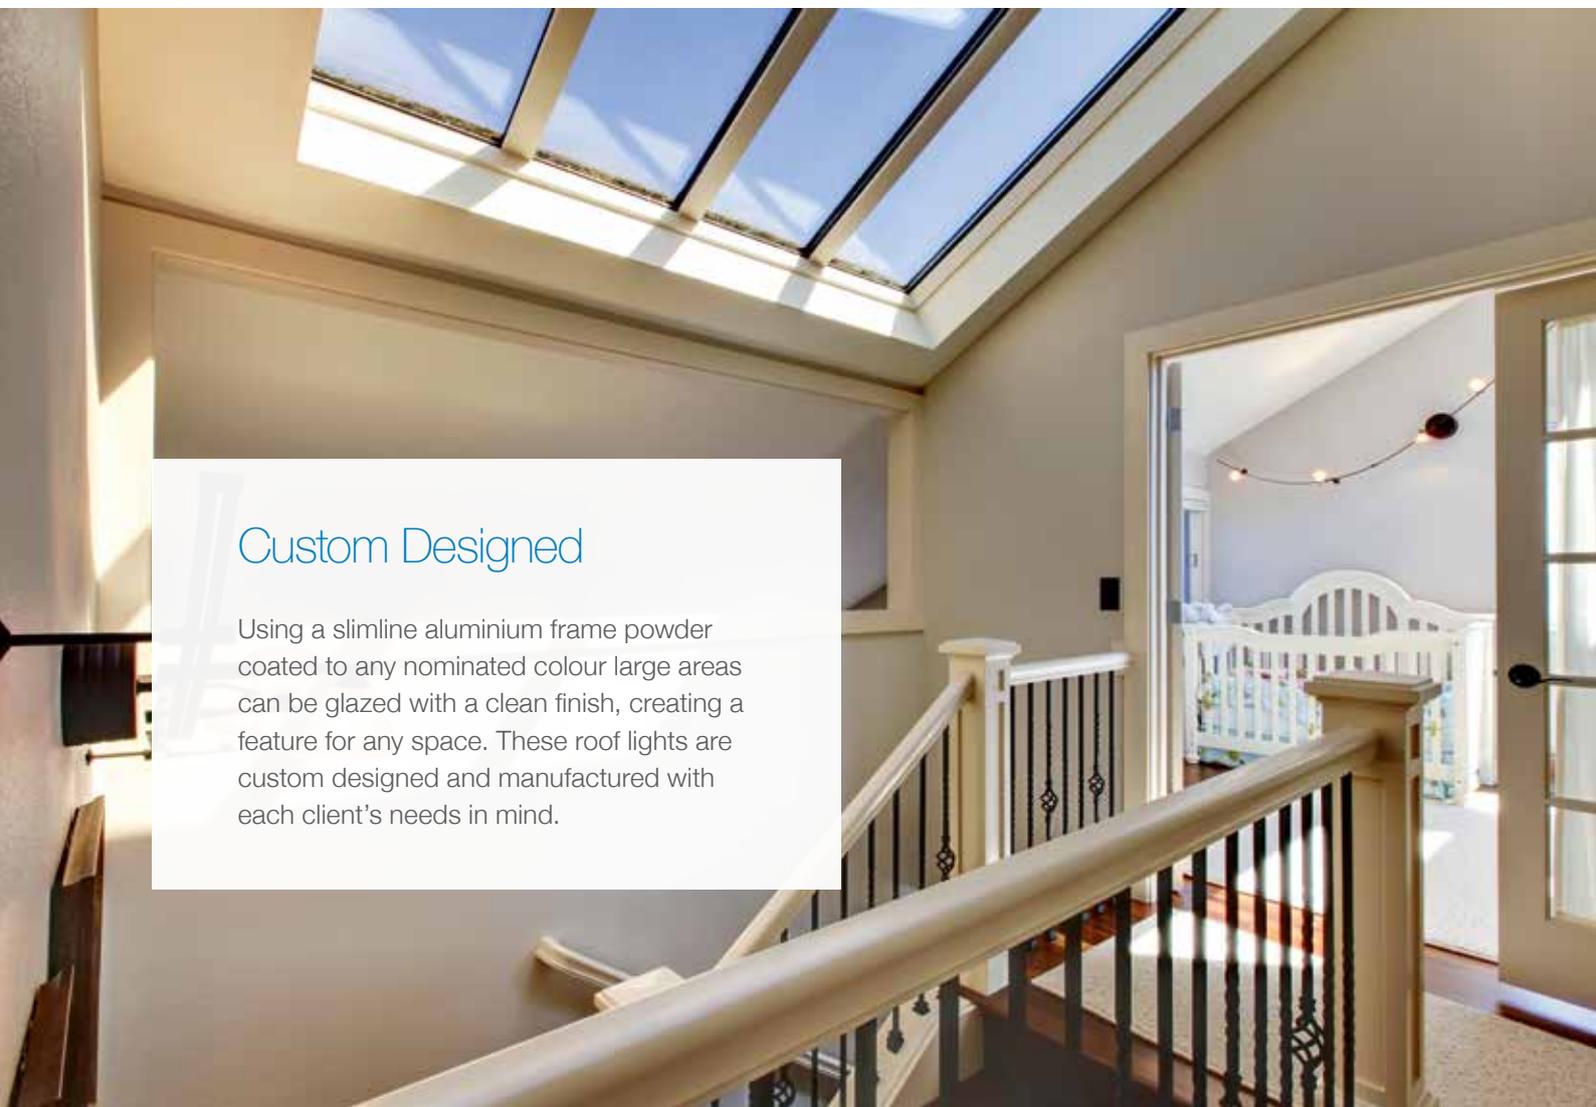

6 VSS – Solar-powered skylight

Custom Made

Custom double glazed skylights give you the flexibility to design a feature that suits your space. The clean internal finish means only the sky is visible with no exposed framework, creating a look in keeping with modern design.

Custom Designed

Using a slimline aluminium frame powder coated to any nominated colour large areas can be glazed with a clean finish, creating a feature for any space. These roof lights are custom designed and manufactured with each client's needs in mind.

Come and visit our showrooms

Our team has undergone an intense Solatube® Installation Certification program, provided by Solatube® Australia Pty Ltd. This training course has been put together through the joint knowledge of Australia's largest skylight network and is focused on delivering a professional installation and courteous service which is second to none in the industry.
